**REQUEST FOR MPs OF THE ASSEMBLY OF KOSOVO COMING FROM PRIZREN
Parliamentary debate to demand accountability for the tragedy in Prizren**

Honoured MPs,

We request from you to take the initiative in the Assembly of Kosovo for including in the agenda of the next parliamentary session the case of the three-year old girl, Xheneta Gashi, who lost her life last week. We request from Assembly of Kosovo, pursuant to its mandate, to demand accountability from the Government of Kosovo and other institutions for this tragedy.

As organizations of the civil society, we have expressed our stance and we are committed to demand accountability from local and central institutions for the death of three-year old girl, Xheneta Gashi. We have two requests: resignation of the Mayor of Prizren and two Ministers of the Government of Kosovo, namely minister of culture and minister of spatial planning, as well as prosecution of all those responsible, who with their failure to act, caused the tragedy.

We request the discussion of the case of institutional negligence, which resulted in the tragedy that occurred last week, as a special item of the agenda in the next session of the Assembly of Kosovo. Therefore, we invite you to take this initiative for parliamentary debate for the tragedy of Prizren as soon as possible.

On behalf of the group of organizations
